Technical Support

## Quality Assured

ISO 9001, ISO 14001, ISO 22000, GMP, HACCP, UKAS 005, PEFC, FSC, BRC Certification Body, Icontec, FDA, HALAL, FSSC 22000

## Sustainable

Commercially ready recyclable packaging, including bio-based polymer, Al-free barrier, paper straws, and bio PE caps.

## Competitive and Transparent Pricing

We offer tiered pricing and rebate structures for large order quantities and adjust our prices regularly based on the market movements.

# Aseptic Packaging Options

## STANDARD 6-layer

The most common structure: comprised of 3 key materials: paperboard, lamination, and aluminum.

- Inside multilayer
- Tie layer
- Aluminum foil
- Lamination layer
- Paperboard with printing ink
- Outer layer

## K-FILM 5-layer

The exceptional K-film can reduce oxygen transmission and improve the shelf life and freshness.

- K-film
- Aluminum foil
- Lamination layer
- Paperboard with printing ink
- Outer layer

## METALIZED 8-layer

Two additional layers that make your products stand out from other standard packages on the shelves.

- Inside multilayer
- Tie layer
- Aluminum foil
- Lamination layer 2
- Paperboard with printing ink
- Lamination layer 1
- Metalized film
- Outer layer

# Sustainable Options

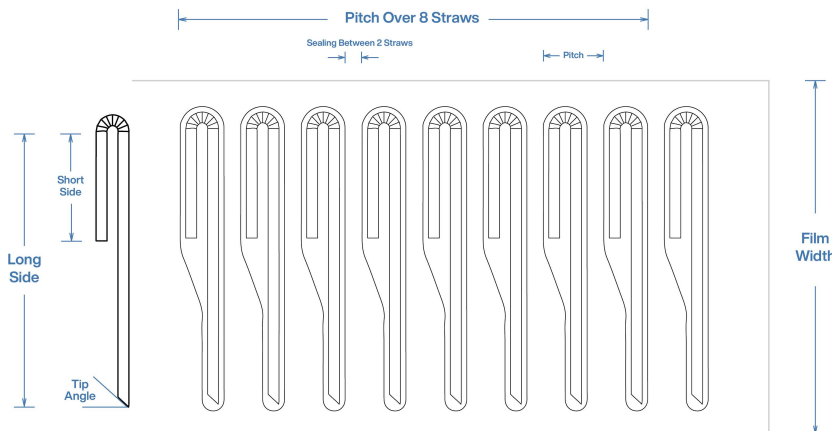

## Eco-practical Solutions

The Natural Series, composed of an outer bio-based polymer coating and an inner layer of unbleached paperboard, represents our commitment to sustainable innovation.

This eco-conscious range is now available for our Brick selection, ensuring both aesthetic appeal and environmental responsibility.

## Bendable Paper Straws

### COMPATIBLE STRAW APPLICATIONS

TSA 21, TSA 36 & Tubex 9001 (low speed)  
TSA 22 & 30 (high speed)

### WRAPPING

BOPP / Paper / Custom Printing

### CERTIFICATION

ISO 9001, ISO 14001, ISO 22000, HALAL, BRC, FDA, QS, LFGB, EU, ISO 14855-1: 2012, FSC, PEFC

**Environmentally Friendly**  
100% biodegradable & recyclable

**Enhanced Strength**  
3-layer structure for extra rigidity

**Setup Made Easy**  
Global tech support included

## Sip green, with straws aseptic-friendly

Comprised of recyclable, 3-layer paper and food-grade glue, our sturdy and user-friendly straws are now available for 200 mL slim and 250 mL brick base packaging.

# About ALNA Packaging

**ALNA Packaging** provides manufacturers with their needs for packaging supplies.

ALNA offers industry leading quality, timing, and value. With an international team working during all hours of the day, we will ensure that your packaging solutions are fulfilled without any compromise to your vision. In times of rising costs, increased trade barriers and limited supply.

## Our Vision

We strive to be the industry leader in delivering high-quality packaging solutions.

With a dedicated international team working tirelessly to fulfill orders, we aim to exceed expectations and drive success for our clients in a rapidly changing global marketplace.
